Missoula County Commissioners:

As a Board Member and chair person for the UM Rodeo Team Board of Directors and because of my involvement with numerous other civic and community organizations, I am writing in support of the request for a feasibility study for an Exposition and Event Multi-Purpose Facility for Missoula.

An event center which would accommodate indoor rodeo events is one small example of the multiplicity of opportunities that could enhance our community. At the very least, we should take the opportunity to further explore the possibilities.

Please give this request your serious consideration. Thank you.
